

## 1<sup>st</sup> International Congress on Metals in Anaerobic Biotechnologies

### Sponsorship Benefits

Dear Sir/Madame,

On behalf of members of the Organizing Committee, it gives me great pleasure to invite you to the upcoming 1<sup>st</sup> International Congress on Metals in Anaerobic Biotechnologies (IMAB17), which will be held in the Instituto de la Grasa in Seville, Spain, from 4 to 6 October 2017 ([www.imab17.com](http://www.imab17.com)). It is expected that more than 200 scientific researchers and professionals around more than 24 different countries will take place on IMAB17.

IMAB17 aims to provide a unique multidisciplinary platform for discussion of state-of-the-art research related to the role of trace metals (TMs) in anaerobic bioprocesses, with special focus on how to manage and recover them. Anaerobic digesters, soil reclamation processes or bioprocesses in the food industry among others are clear examples of anaerobic bioprocesses, where addition of TM is often done. IMAB17 also provides an opportunity to stay on top of the latest developments in tools, approaches and methods to identify, assess and manage TMs in various areas of application, including industry, environmental management, societal needs and policy.

The multidisciplinary approach of this conference not only attracts participation from a wide scientific community, but also provides an opportunity to establish new scientific, technical and commercial collaborations between academia and industry. Furthermore, IMAB17 conferences will attract high number of young scientists who are eager to explore the availability of new sophisticated research tools, material and laboratory equipment represents a good opportunity leading to a new partnership.

We hope you will use this event to promote your company as a key player in the biotechnology sector, build connections with new clients, and seek research partners or future employees among the top students attending this event.

Organizers of IMAB17 prepared various promotional opportunities for sponsors; the detailed overview of sponsorship activities and benefits you can find below or at the conference website. The organizers are also prepared to discuss your individual requirements and modify the opportunities offered below to fulfil your particular needs and ideas.
